

Presidents Annual Report 2025

2025 is a season to remember.

This past year has been one of significant growth and progress for our Association, both on and off the field. I am incredibly proud of what we've accomplished together and excited about the direction we are headed.

One of the major milestones for 2025 was the replacement of our turf field, a critical investment in the long-term quality and safety of our facilities. This project ensures that our players, from grassroots to senior, have a top-class surface to train and compete on for years to come. Our logo at the entrance looks fantastic and elevates our club pride.

We were also pleased to welcome two new Technical Directors, Victor Dray and Andrew Moyst, whose leadership and expertise have already had a positive impact across our programs. Their focus on development, coaching standards, and player experience have elevated the technical side of our club. We were also joined by our new Office Manager, Rob Comerford, who has brought fresh energy and organization to our day-to-day operations.

Financial sustainability remains a key focus, and this year we made great strides by increasing our passive income streams. These efforts strengthen our foundation and help ensure long-term stability and support for all club initiatives. Looking to next year we have room to grow what we can offer and continue to build on the financial security of our club for years to come.

We secured a generous sponsorship from Capital Auto Group for our younger age groups. Lets continue to build and foster relationships in our community. I would love to see us grow our Corporate Sponsorship portfolio in 2026.

Our youth and senior programs both saw strong growth in enrolment, reflecting the health of our programs and the continued trust of our community. With this

growth came an enhanced developmental pathway, including dedicated in-house coaching education and specialized goalkeeper training, as well as a network through google classroom developed by our TD's for our coaches to refer to for resources. These initiatives led by our technical staff will continue to raise the standard across all levels.

We are thrilled to be welcoming the Ladies Masters League next season to our club. This is a wonderful addition to our community.

A proud highlight of the year was being recognized by Canada Soccer as an Organization of Distinction, an honour presented by Charlie Reid of the NLSA at our Challenge Cup home opener. This national recognition reflects the collective efforts of our board, technical team, volunteers, and players who contribute daily to the success of MPSA.

As we look ahead, we remain committed to providing quality programming, supporting player development, and strengthening our community connection through the game we all love.

Thank you to our members, coaches, volunteers, and partners for another successful year.

Volunteers are the backbone of our Club. Our continued success is a reflection of the fantastic work and time so graciously given by everyone. Thank you all so much.

Lisa Inkpen
President MPSA
